

# PATIO HEATER

## INSTRUCTION MANUAL

---

### **SAFETY PRECAUTIONS:**

- Heater is for outdoor use only. **DO NOT** use it inside a building, tent, or any enclosed areas
- Do not touch heater while operating
- The pilot light allows for safer startups and shutdowns. Pilot must be lit before main burner can be started

### **INSTRUCTIONS:**

1. Turn the control knob to the OFF position.
2. Once the propane is connected, open the gas.
3. Push control knob IN and rotate to PILOT position.
4. While pushing on the control knob on the pilot position, push and release the igniter button (RED) until pilot flame is visible through viewing hole.
5. Once the pilot is lit, continue to depress the control knob for 30 sec.

## INSTRUCTION MANUAL

(cont.)

### INSTRUCTIONS:

6. If the pilot does not stay lit, repeat steps 3-5.
7. If after repeating steps 4-6 unit does not light:
  - i. Push in CONTROL KNOB and turn counterclockwise to PILOT
  - ii. As you are depressing the CONTROL KNOB, place lighter into the ignition hole on the emitter screen to light the pilot
  - iii. Repeat step 6
8. Adjust temperature with CONTROL KNOB.
9. To turn OFF heater, turn the CONTROL KNOB to the PILOT position, then PRESS and turn knob to OFF position.
10. Turn OFF the valve on the propane tank completely.

NOTE: If pilot fails to remain lit, all valves should be closed and allow at least 5 minutes of a waiting period before attempting to light.
